Forms Required for Campers

The medical and photo release forms are available online, to be completed as part of the online registration process. You can even upload a scan of your insurance card to the camper's medical record if you wish, or bring a copy of your card on the first day of camp. If you cannot register online, the forms are available to print at www.ohioucc.org/outdoor-ministries. Send or email completed photo release and medical forms to the Outdoor Ministries office at least 3 weeks before camp, along with a copy of your insurance card. Communicating with your child at camp

- **Campers love to get mail at camp!** If you are sending mail to camp, it is best to mail it by Wednesday to be sure it arrives while your camper is still here. Please address your letter following this example:

Camper's name
Name of camp event (ex: Sports Camp or Choir Camp)
5734 Durbin Rd
Belleville, OH 44813

- **Email your campers!** You can send a one-way message to your camper (they cannot reply to you) by sending emails to:

Letters.to.Templd.Hills@gmail.com

Please put the name of the camp event and your camper's name in the Subject line (ex: Love the Pool – Suzie Smith). Emails will be distributed daily during regular mail call.

A general note about email:

Please keep your message focused on general news and questions regarding your camper's experience. What means the most to the camper is simply hearing from you. Please don't share too many details of what's happening at home that the camper is missing. There is something very "immediate" about an email message that seems to increase homesickness in some of our campers.
